"Soaring to New Heights"

June 8, 2021

Students and Parents,

It is getting that time of year again where we are all looking forward to summer break, but we have a few reminders regarding school materials and electronic devices, such as Chromebooks and Hotspots.

If your student is **returning** to Col. Fred Cherry Middle or going to another SPS school next year, **you will not turn in your Chromebook** at the end of this school year. Please find a safe place to store your student's Chromebook and charger over the summer so that it can be used for next school year. ***Please continue to charge the Chromebook over the summer. Chromebooks falling below 3% battery life will not charge or turn on.***

If you **plan to move your child to another school outside of Suffolk for the 2021-22 school year**, you **will need to return your chromebook and charger before June 18th**. You may also return it during the summer months to the CFCMS office when you officially withdraw your student.

All hotspots must be returned no later than June 18th. These can be dropped off in our main office. **There are no exceptions.** If you are attending summer school, keep an eye on the SPS website for a new hotspot application.

Students can continue to use their Chromebooks over the summer but please charge it periodically. If a student is transferring to another SPS school, the Chromebook will follow them there.

If your student has any library books or textbooks from this year or a previous year, they can still be turned in to the CFCMS main office during the summer. Remember, any textbooks or library books not returned or paid for will need to be taken care of before receiving your diploma in High School.
